

Ensamblada E-Tour

1 Leaf Door

The Ensamblada Tour Door has the same internal features as the Ensamblada Door with the difference of reversibility.

The leaf has no upper overlap (A).

The hinges are bolted to the frame (B).

FRAME

CS4 corner frame.

It includes drawings for the hinges (C) in both vertical profiles and 2 holes for the carter latch protection.

LOCKING AND DRIVING SYSTEM

Steel lock embedded in the leaf (D).

Brass cylinder 30x30 (E).

Set shield + handle with black nylon escutcheon (F).

REVERSIBILITY OF JUST ONE LEAF

(D)

(E)

(F)
